

# Communication

"How do I take in and express ideas?"

This goal is to be a great communicator: to understand your audience, to write, to read, to speak and listen well, to use technology and artistic expression to communicate, and to be exposed to another language.

## Questions to develop your project:

- How can I write about it?
- What is the main idea I want to get across (thesis)?
- Who is my audience?
- What can I read about it?
- Whom can I listen to about it?
- How can I speak about it?
- How can technology help me to express it?
- How can I express it creatively?
- How can I express it in another language?

<b>Write for varied purposes.</b>	Reflection; summarizing and analyzing articles, literature, poetry, etc.; using an effective writing process; writing to persuade, explain, inform, plan, etc.; creative and artistic writing; etc.
<b>Read and interpret from a variety of genres and periods.</b>	Reading to learn about topics of interest; reading articles and essays for discussion; reading for research; reading and interpreting creative works; etc.
<b>Conduct inquiry and research.</b>	Conducting research to address questions and problems of interest in various contexts; using and citing primary and secondary sources to gather and synthesize information and to create and communicate new knowledge.
<b>Communicate and analyze in various forms.</b>	Developing fluency in multiple communications media; choosing and implementing most effective media for purpose, audience, and context.
<b>Present to groups in various contexts.</b>	Public speaking, public displays and defenses of work, meeting and seminar facilitation, teaching, etc.
