

Wait! Don't Contaminate.

You can't always see contamination...

...but it's there!

REMOVE YOUR GLOVES before touching clean surfaces (i.e., doors and door handles) to prevent the spread of contamination from hazardous materials.

Post "No Gloves Here" stickers in areas where risk of cross-contamination is particularly abundant (e.g., door handles, elevators, etc.). Sticker templates available for download: <http://tiny.cc/no-gloves-avery>
